Saxo Invest Global Evolution Frontier Markets - share class R (USD), a sub-fund of Saxo Invest SICAV

WKN / ISIN: A1JS2H / LU0735966888

The fund is managed by Universal-Investment-Luxembourg S.A. (the "management company").

Objectives and investment policy

The investment objective of the sub-fund is to create returns.

To achieve the investment objective the sub-fund invests mainly in traditional transferable securities like fixed income securities (typically denominated in USD, EUR and GBP) and local currency fixed income securities issued by sovereigns, supra-nationals and/or multilaterals in Frontier Markets and a range of foreign exchange instruments.

The sub-fund may perform derivative trades in order to hedge positions or to increase its returns.

Within this scope, the choice of the individual assets is performed by the investment manager of the sub-fund.

Income shall remain in the sub-fund and shall increase the value of the shares.

Investors may, in general, redeem their shares with the management company on each trading day, i.e. each entire bank working day in Luxembourg, Frankfurt am Main and in Denmark. The fund may, however, suspend redemptions when extraordinary circumstances exist which, taking into consideration the interests of the shareholders, make a suspension appear necessary.

Recommendation: This sub-fund may not be appropriate for investors who plan to withdraw their money within a period of less than 3 years.

Risk and reward profile

This risk indicator relies on historic data and cannot be used for a prediction of future developments. The categorisation of the sub-fund may change in the future and is not a guarantee. Even a fund in category 1 is not an entirely risk-free investment.

The sub-fund has been placed in category 5 because its share value fluctuates relatively strongly and therefore the chance of profit but also the risk of loss can be relatively high.

It may be that due to the calculation model not all risks are accounted for when placing the sub-fund in a risk category. An extensive description of the risks is included in the section "Risks of Investment" in the prospectus. The following risks have no direct bearing on the categorisation but may nevertheless be of relevance to the sub-fund:

- Credit risks: The sub-fund may invest a part of its assets in debt securities issued by governments or companies. The issuers of these debt securities may become insolvent which may result in the partial or full loss of the value of their debt securities.
- Currency markets risk: The sub-fund is investing its assets in the international currency markets and is therefore exposed both to the increased opportunity and the increased risk of loss resulting from changes in exchange rates.
- Risks from the use of derivatives: The sub-fund may use derivatives for the purposes described above under "Objectives and Investment Policy". This does result in both increased opportunities and increased risk of loss. The use of derivatives to hedge against losses may also reduce the profit opportunities of the sub-fund.
- Custody risks: The custody of assets, particularly abroad, may involve a risk of loss arising from the possibility that the custodian or sub-custodian becomes insolvent, breach duties of due care or engages in abusive conduct.
- Operational risks: The sub-fund may become a victim of fraud or other criminal actions. It may also suffer losses caused by misunderstandings or mistakes of employees of the management company or third parties or it may suffer damages caused by external occurrences such as natural disasters.

In case of a conversion of the shares from one share class of the sub-fund into another share class of this or another sub-fund no additional charge will be levied.

The ongoing charge mentioned here was incurred in the preceding financial year of the sub-fund which ended in December, 2012. The ongoing charge may vary from year to year. The ongoing charges figure does not include Performance fees and charges for the purchase and sale of assets (Portfolio transaction costs). The annual report for each financial year includes details of the exactly calculated costs.
